EDUCATION

Michigan State University, College of Engineering East Lansing, Mi.

Bachelor of Engineering, Computer Science and Engineering December 2022 - April 2027

TECHNICAL CAPABILITIES

Proficient: C, C++, JavaScript, CSS, HTML, Python, Unix, Microsoft Office Suite, Google Suite, SQL

Intermediate: CAD, React, Spring Framework, AngularJS, Docker & Kubernetes, C#, Excel, DaVinci Resolve…

EXPERIENCE

Resilire Neuro Brighton, Michigan

Residential Service Technician April 2026– Now

- Took on the role of providing at-home care in an assisted living facility for the neurologically impaired. Learned great time management skills and how to handle behaviors and physical issues with grace, with the goal of providing excellent care.

Kellogg Hotel & Conference Center East Lansing, Michigan

Audio-Visual Technician January 2024 – August 2025

- Acquired valuable information on mixers (the effects of modulating decibels in high, mid, and low frequencies for optimal listening experience), power efficiency, projection technologies, running cable systems to and from a Crestron sound system, and careful cable management skills on-site and within storage.
- Discovered ways to receive and relay information to guests and clients about what the hotel could provide and what they need optimally. These skills help in explaining concepts that may be foreign or new to anyone.

PROJECTS

Personal Portfolio Website December 2024 - Present

- Refined HTML, CSS, and JS skills within a software Engineering environment. This page is a work in progress and can be found on GitHub.

MSUTSO Website July 2025

- Used web design skills in HTML, CSS, and JS to build an interactive, informative landing page for the MSU Transactional Services Organization at MSU. Gained an understanding of the importance of communication and time management when completing a project for a team that is not personal.

Text-Based Game - Apple Intelligence Present

- Altering a Language Model for use in a choose-your-own-adventure style text-based game. This will be run on later iOS devices, Macs, and iPads- any devices with Apple Intelligence support, since these are known to run on-device language models consistently.
- The only stat necessary is health. Typing an action manipulates the story of the game. Every outcome of an input action will be determined by spelling and grammar. This is a work-in-progress project.

STUDY ABROAD Madrid, Spain

Quantum Computation and Information September 2025 - December 2025

- A culturally enriching experience studying Quantum Computation and Information, along with a few arts and history courses.
